

Injured at work?

If your injury is serious or life-threatening, immediately call 911.

The 24/7 Nurse Hotline is available for non-life-threatening injuries.

1 Call the Nurse Hotline at (855) 563-1035

Make the call immediately following a work-place injury. A registered nurse will ask for personal information and facts related to the injury.

2 Identifying Necessary Treatment

The registered nurse will recommend the best treatment for your injuries. Treatments may include: first aid, referral to a medical provider, or connecting you with a medical provider instantly through Telehealth.

3 Report the Claim

Timely claim reporting is very important; be sure to discuss your injury with your supervisor or manager as soon as it occurs.
